

# St. John's Earth Day Celebration 2023!

## Pinecone Bird Feeder Instructions

*Please work on a covered surface, thank you!*

- 1) **Add string** - Cut a piece of string or twine to 8 in to 10 inches long. Slip a knot around the top of your pinecone and tighten it securely in place.
- 2) **Apply peanut butter** - Add a dollop of peanut butter into a small container. Using a popsicle stick and working on covered surface, carefully spread peanut butter onto your pinecone, pressing between the scales.
- 3) **Coat in bird seeds** - Once the cone is coated, roll in birdseed fully covered with seeds.
- 4) **Hang bird feeder** - Hang in a cool, shaded location safe from predators. Tie the string to branches in trees or bushes.
